

HELIOS X5000 HD Network Media Player

The X5000 will revolutionize your digital lifestyle.

The HELIOS X5000 HD Network Media Player gives you the power to personalize your digital experience and the flexibility to access all your digital media from wherever it is stored and watch them in your home theater.

Created for the absolute home theater and audio enthusiast, the X5000 is designed to impress with its handcrafted fully-brushed aluminum front panel.

With an R-core linear power supply, Burr-Brown 2 channel Op Amps, Burr-Brown stereo DAC, high-end ELNA audio grade high-speed capacitors and gold-plated RCA jacks; indulge in exceptionally rich audio quality and superior video performance.

CONNECT

your television to your PC, laptops, digital cameras, hard drives, projectors, MP3 and MP4 players, and more.

STREAM

internet radio, television and broadcast news, as well as digital media from any machine on the network, onto your television.

SHARE

your movies, home videos, music and photos with absolute ease via LAN, WIFI or USB port.

ACCESS

Internet content, bookmarks and favorites, straight from your television via the HELIOS Media Portal without having to turn on your computer.

WATCH

in high-definition resolution – up to 1080p!

LISTEN

to all your CDs and music files with the rich sound of high-grade audio components.

EXPERIENCE

the future of networked home entertainment and internet infotainment.

The X5000 supports just about every major media and encoding format available. The NeoLink Server software is also compatible with Apple iTunes, Real Rhapsody and Napster, supports Windows Media/WinAMP playlists, and does real time transcoding for Real player (RMVB) and 3GPP formats.
